

- 01 Timmy has a decision to make. He's just finished his Fizzypop Soda and isn't sure what to do with the empty can.
- 02 He could simply throw it in the trash can and not worry about recycling.
- 03 One of the problems with just "throwing things away" is that they can end up in our lakes and rivers.
- 04 If our lakes and rivers become polluted, then all of the fish will die. Bears can't eat dead fish.
- 05 Bears will be forced to find other places to eat. Unfortunately that means the bears start taking over our restaurants.
- 06 Since bears have taken Uncle Vinny's favorite table at his favorite restaurant, Uncle Vinny hasn't been able to eat his favorite meal, spaghetti and meat balls.
- 07 People can't go to the lakes anymore because they are so filthy. Now everyone just sits in front of the TV and never goes outside anymore.
- 08 Because no one goes outside anymore, the sun doesn't have anyone to play with.
- 09 Since the lakes and rivers are so full of our trash, ducks no longer have a place to live.
- 10 Under pressure from animal activists congress signs into law the "Water Foul Household Placement Initiative". Each American is now responsible for housing 12.3 ducks.
- 11 As a result of their new government alliance, ducks gain a vast working knowledge of our political systems. The first duck president becomes elected in 2024.
- 12 After 2024, rubber ducks are deemed "insensitive" forcing children everywhere to play with Mr. Rutabagahead, the worst toy ever created.
- 13 Since there are no rubber ducks, children no longer takes baths.
- 14 Another problem with throwing our cans away is that they can just end up on the ground.
- 15 If we have trash all over the ground, then all of the flowers die.
- 16 Since the flowers are dead the bees having nothing to eat.
- 17 Because there are no bees, there is no honey, which is another reason bears have nothing to eat.
- 18 The real problem with just throwing things away, is that our trash just ends up in a big pile called a landfill.
- 19 In fact, if we kept throwing things out with garbage in a matter of days! Idaho would fill up with garbage in a matter of days!
- 20 If Idaho filled up with garbage, we wouldn't have any more potatoes.
- 21 Since there aren't any more potatoes, everyone's favorite toy is replaced with everyone's least favorite toy, Mr. Rutabagahead.
- 22 Without potatoes, you can't make potato chips. Football fans around the country are forced to eat celery sticks instead.
- 23 Remember that part about all of the dying flowers? Well, if there aren't any flowers, there aren't any florists.
- 24 Since you can't have Mother's Day without flowers, the holiday is cancelled and removed from calendars everywhere.
- 25 Because all of the florists have closed shop, bridesmaids are forced to hold spare tires instead of bouquets.
- 26 After Mother's Day was cancelled, the Easter Bunny bought a majority share in the month of May, allowing him to extend Easter Egg hunts into a 2 month event.
- 27 Now that the Easter Bunny hides eggs for 60 straight days, our country suffers the worst egg shortage in history.
- 28 Bacon can't go on with breakfast without eggs, and fall into deep stages of depression.
- 29 You can't make a club sandwich with depressed bacon, so club sandwiches everywhere are simply thrown away.
- 30 Ultimately, Timmy decides to recycle his empty can of Fizzypop. Soon enough, his old can is made new again, and Timmy gets to enjoy another refreshing drink without harming the environment.

Way to go Timmy!

Simple choices can have complicated results. Please recycle.
